Chicago, Chicago, IL
Bachelor Fine Arts

WORK EXPERIENCE

April 2019 – August 2019

DigitalCrafts, Atlanta, GA • Developer in Residence for April 2019 Cohort

In this role I was primarily a resource for students learning algorithms, command line, CSS, Express, Git, HTML, JavaScript, Node, PostgreSQL, Python, React, Redux. Collaborated with the instructor to ensure student success. Lead an hour of instruction every Friday covering algorithms and interview prep.

March 2016 – November 2018

Fernbank Museum, Atlanta, GA • Traffic and Production Coordinator in Marketing

Primary responsibilities included the coordination of production for the design team, including liaising with internal clients and print vendors, and organizing project schedules and tracking projects from inception to production. I also actively researched and implemented new technologies to improve workflow.

February 2014 – August 2015

Jessica Silverman Gallery, San Francisco, CA • Director of Operations

Primary responsibilities included management of all gallery inventory records as well as the management of all day-to-day gallery functions related to logistics, vendor liaising, and complex project management.

July 2012 – January 2014

Blick Art Materials, Oakland, CA • Inventory Manager

Primary responsibilities included the management of inventory and personnel.
